# Physical Inventory Specialists for Pharmacies & Drug Stores

Specialization makes all the difference

---

PICS conducts thousands of pharmacy and drug inventories every year. Our dedicated teams focus is on delivering highly accurate inventory counts for your business using a timely, cost-effective process we have proven with some of the most successful pharmacies in the nation.

**ALL of our inventory team members are professionally trained, drug tested, HIPPA certified and background checked.**

---

# Producing an Accurate Inventory for Pharmacies & Drug Stores

Training Systems, Dedicated Team Compliance, Employee Retention  
& Efficiency Measurements all built specifically to support you.

## We are experienced

PICS conducts thousands of pharmacy inventories for the nation's largest grocers, with a near perfect track record of meeting on time performance and accuracy measurements.

## We understand pack sizes & pill packaging

Our Auditors can count them as half, full or in tenths, whichever you prefer. We will work with you and your current inventory procedures to ensure your inventory is counted accurately. We can capture the data by bay and section to ensure the product is categorized to meet your requirements.

## We know checks & balances are important

We have advanced hardware and software solutions that have been built from the ground up over the last 30 years. This highly configurable software has internal controls that prevent scanning or keying in a wrong NDC number.

## We can create customized reports

We support both Financial and UPC/SKU inventories. We can scan your products NDC barcode and match it to your SKU file or convert it to UPC. If you want to pull cost or price from your master file, we can support you.
