
Physical Inventory Specialists for Grocers

Specialization makes all the difference

At Phyle Inventory Control Specialists (PICS), our dedicated teams are trained to understand the importance of your inventory and the need for uniquely responsive customer service, accuracy, timeliness and a cost-effective system.

More than 95% of the inventories PICS conducts are for the most successful grocers in the nation.

Grocery is unique in retail, requiring distinctive skills and tools

Training Systems, Dedicated Team Compliance, Employee Retention
& Efficiency Measurements all built specifically to support Grocers.

Prior to the inventory:

- We work with you to understand your inventory policies and procedures
- We develop processes to ensure industry leading controls for accuracy, including customer specific technology development
- We partner to develop a road map to achieve your long term goals

During the inventory:

- Dedicated teams deliver a higher level of precision. PICS are consistently ranked #1 in accuracy by customers, while achieving 98% on time performance.

At the completion of the inventory:

- PICS provide unique collaboration tools making in store closeout more efficient, effective and accurate - increasing store adoption of results.
- Final outputs and reporting are returned near real time in formats you specify, and weekly reports summarize recount activity and performance metrics.
